

University of Nevada, Reno Center for Molecular Medicine

Dekker/Perich/Sabatini is currently developing the Facilities Program and Micro-Masterplan for the new UNR Center for Molecular Medicine. The Facility will be located on the campus of the University of Nevada, Reno adjacent to the University of Nevada School of Medicine complex at the north end of the campus. The facility will be designed to a \$62.5 million dollar construction budget excluding FF&E and will provide approximately 105,000 ft² of research laboratory, vivarium and clinical space for the University and its private partners, The Chronic Fatigue Syndrome Center of Excellence, Red Labs and the Nevada Cancer Institute. The project is interdisciplinary in nature and will incorporate the fundamentals of sustainability and energy efficiency. The project will be capable of achieving LEEDTM (Leadership in Energy and Environmental Design) Silver Certification from the U.S. Green Building Council (USGBC) and meet the criteria set forth by Labs21. It's aiming for 42% energy savings and 50% water savings.

Location: Reno, NV

Cost: \$62.5 million

Size: 100,000sf

Completion: 2010
